

Pilot Hill PROJECT

CALL FOR *photos!*

The Pilot Hill Project Committee needs your help collecting images of the Pilot Hill Project. We're looking for photographs that showcase the sweeping vistas, shortgrass prairie habitat, natural features and wildlife that characterize this unique and special place.

Photographs will be used in outreach materials as we promote the purchase in coming months.

When submitting images, please follow these guidelines:

- Access is not permitted on the Pilot Hill parcel, so photographs should be taken only from legal vantage points overlooking the parcel; see the map below for suggested locations indicated by the black stars.
- Photos should be high-resolution, at least 300 dpi and 10" wide/tall.
- All work must be the copyright of the photographer.
- Include a photo credit, contact information and a caption describing the photo.
- By submitting your photographs, you agree that the organizations pursuing the PHP are free to use them without restriction or compensation.
- Submit photos to pilothillproject@gmail.com.
